FOR THE CURE OF

DYSPEPSIA, INDIGESTION, Weakness or Debility, Flatulency and Nausea, Loss of Appetite, Nervousness, Liver Com-plaints, Bilious Fevers, and all Diseases of the Stomach, Liver, and Bowels. AS A PREVENTIVE FOR PEVER AND AGUE THESE BITTERS ARE NOT EQUALLED.

W. P. & A. W. GREELEY, Proprietors, Boston

THE OBJECT of all medicine is either to prevent disease, or to assist Nature in restoring the various organs of the body to a healthful action, and that medicine is certainly the best which will perform those offices thoroughly, yet mildly, and without endangering the vital forces of the system, by whose normal condition alone health and strength can be preserved. Most of the Bitters that have heretofore been brought into popular favor, have only served the purpose of temporarily stimulating or exciting the organs into a condition resembling healthful action, without any remedial effect, and generally followed by a return of the disease, or a prostration of nervous energy more disastrous than though Nature had been left to take its own source.

Dr. Greeley's Bitters are a preparation of the nutritive properties of the grain of the fields in combination with the active principle of many simple alteratives and bitter tonics, and it is a pleasure to the proprietors to state that its unefulness is being generally acknowledged by the largely-increasing consumption in those sections where it is best known, and by the testimony of many eminent physicians, who have not only made trial of it, but continually prescribe the Bitters in those cases for which it is recommended.

AGED PEOPLE, AND ALL WEAKLY PER-SONS.

Consumptive patients, and others, whose constitutions have become impaired by time, or enfeebled by disease, and in whom the process of digestion does not replace the fat and tissues of the body as fast as they waste, will find these Bitters at once nourishing and strengthening, and happily adapted for their use. The great advantage the Bitters possess over ordinary stimulants usually prescribed in treating lung complaints and kindred diseases, is the fact that they combine many safe and certain healing properties in connection with the best known stimulant.

DELICATE LADIES

Will derive great benefit from it. No unpleasant effect will ever result from taking the Bitters, if the directions are followed. For those who suffer from nervous debility, languor, want of rest, exhaustion, and in all cases of weakness, the Bitters are not equalled.

As an agrecable stomachic, it is much admired; it sharpens the appetite, brightens the intellect, and infuses new life and vigor. No one who uses there Bitters can be subject to an at-

tack of FEVER and AGUE, or DIARRHOEA. Of all the ills that afflict men and women, few are so agonizing as Dyspepsia. It is a sort of combination of many diseases. Thanks to science and Dr. GREELEY, a specific has now been obtained. GREELEY'S BOURSON BITTERS take straight hold of the disease, and begin a cure.
